I tease it to forget when you have seen it all before
I will be gone through the motions as I lead you at the
bar
You can get drinks and I will bring this city to its knees
I've got the answers of my sleep

And I'll go toe to toe with your success
Trading road for road
I will lose one hope
Withering but beautiful career

For this exercise in me
Look for this glory's effort
Take it back to go away
Tired of color to demise

Because something to believe me
If there's something you can trust
I will be dressed for the occasion
All the touch will turn to dust

And it isn't quite the same way
You've seen how the trick is done
You can feel into the masses
It this cold thing sets it off

To fill those spaces in-between
You can wave and wait to see
But there is no waste for the memory
And there's no room for the weak

And I'll go toe to toe with your success
Trading road for road
I will lose one hope
Withering but beautiful career

For this exercise in me
Look for this glory's effort
Take it back to go away
Tired of color to demise

And I'll go toe to toe with your success
Trading road for road
I will lose one hope
Withering but beautiful career

For this exercise in me
Look for this glory's effort
Take it back to go away
Tired of color to demise
