A better way to live, another way to live
Another day I want a better way to live

I ran away to kill the pain so far from home
I feel the shame and now I take the pills, I'm high alone
And I can't believe
My hands are bleeding so much in your control

Well, who's to blame, I sign my name just to throw
Just to throw it all away, this is my life

This love will suffer from the pain
Life will never be the same
I wanted something more than this
I want a better way to live

And now we suffer all alone
And this life is like a broken home
This is who I am, can you breathe?
A better way for us to live

I used to think this world was cold and empty
I was told another day, another promise
I kept holding on, we live in pain
We keep it all and did nothing at all

With you and me
You call my name when I burn
When I burn it all away, this is my life

This love will suffer from the pain
Life will never be the same
I wanted something more than this
And I want a better way to live

And now we suffer all alone
This life is like a broken home
This is who I am, can you breathe?
A better way for us to live

My life will never be the same
I can't live on without you so far away from home

I can't be free without you at the end of life
[Incomprehensible], would you wanna be
You're the one that screams alone, that screams alone

This love will suffer from the pain
Life will never be the same
I wanted something more than this
And I want a better way to live

And now we suffer all alone
This life is like a broken home
I wanted something more than this
And I want a better way

A better way for us to live, a better way
A better way for us to live, a better way
A better way for us to live, a better way

This is who I am, can you breathe?
A better way for us to live
