"Part Of The Signs"

Everything that you say
Everything that you do
Nothing will change
You feel my rage
Give in to me, you run through me

Dying, you presence feels right
That's a part of the signs
Need you here, once you're near
Release my fears
Now

Every word that you say
Every time that you burn

All thoughts you feel
I know they're real
I can smell you, I can spell you

Thinking life will rearrange
Hope our hearts will never change
Encontre adentro en ti
Everything I lost in me
De ti no quiero separame
Viviras adentro de mi sangre
You are the one
