

Ill Scarlett "Messed Up"

Visit "[Messed Up](#)" on MotoLyrics.com

Save me, I don't think I'll make it out of this place
The casualty of war
It won't work for just this minumum wage
For some jerk who's rhymed these words before

This world's got me surrounded, tryin to bring me to
my knees
I won't go down that easily
There ain't no way around it, was blind but now I see
I won't go down so easily

They said I would amount to nothing
Now they're dead, I blew them all away
You complain about everything and everybody
Now why you're such a saint

This world's got me surrounded, tryin to bring me to
my knees
I won't go down that easily
There ain't no way around it, was blind but now I see
I won't go down so easily

On my own, won't back down
All alone, stand my ground
It's over now

This world's got me surrounded, tryin to bring me to
my knees
I won't go down that easily
There ain't no way around it, was blind but now I see
I won't go down that easily
