I'm cornered  
It's great to believe  
That someday, not just any day  
I will play  
Mainly hypothetical, and pathetic

She's undressed  
My heart's in vein  
Unfortunate

I've lost  
Her fingers fickels me  
My trust  
She's not worthy

I cannot  
Explain how it is  
A sex drug  
Which eases the pain, don't tell me  
I know the addiction  
Perfection

Take off your dress and show your breast  
Can't wait to fire at all

Into a hole, into another  
Down we fall, fails to suffer
