Its sick mama; but it's back down on your knees
(You'll scream and I'll laugh, the sickest I can be)
Come on baby, you'll even learn my name
(Its pain, it's your gain, Just fucking go away)
Ill introduce you honey
Inside - Where creatures come and go
In search of souls
Inside - You heart is empty but who looks
In search of souls
Its time; just close your eyes
(Search, obey Baby feel my needs)
Know the pain as it hurts your soul
(Fall you cunt Fall into place)
You will now taste my hand
Inside - Where creatures come and go
In search of souls
Inside - You heart is empty but who looks
In search of souls
