"You Against The World"

Visit "[You Against The World](#)" on MotoLyrics.com

Hey How are you holding up now?
Is it the same? I bet it is
Still haven't found your peace?
Still on the edge? I bet you are
Come on man What can you tell me?
I wish I had a Goddamn life
But to say that would be wrong
Wish my life had just turned out
Better, but my weak is strong
So Will you stay there forever?
All in your grief? I bet you will
Or will you pull it together?
Is it a lie? I bet you can
Come on you fool, lets do it
I wish I could just let it go
But to do that would be hard
My friends will never ever know
How much I try for my part
Its you against the world
Or you against yourself
Its you against the world
I wish I had a Goddamn life
But to say that would be wrong
Wish my life had just turned out
Better, but my weak is strong
I wish I could just let it go
But to do that would be hard
My friends will never ever know
How much I try for my part
Rock (Rock) Please let me guide you (Let me guide you)
Think it will work? I know it does
I mean we do this as one
Just take my hand, I know you can
