Hold on, baby, let's sing it again
Let's just pretend that we go all the way back
Don't tell nobody, shh, it's just me
An' this shit's free an' I got all that ya need
Sometimes what you need is a nosebleed

I'll be right back now, don't leave this spot
Let's do some shots, ya know I can't turn 'em down
Hey guys, 'm I floatin'? Is it just me?
Is this my seat that goes all the way up?
I know what ya need, it's a nosebleed

Well, here we go again with pots on my knees
Quick, get your shovel an' dig up all that I've planted
But why are we whispering? Is my face red?
Is it me instead layin' awake inside my bed?
So Jip take a ride in your lil red soul
Jippy took a ride in his lil red soul
