Throw up your hands up  
And reach for the sky  
Nobody's stopping you now  
Get your hands up  
And don't try to hide  
I see everything  
Hands up  
You're doing alright, you know we're not gonna stop  
'Till you're hands up  
Get famous tonight  
I see everything

What's the deal I'm about to steal everything you own  
Listen gun, if you try to run, I'll still get your gold  
I advise if it's my advice to do as your told  
If you want, you can join the hunt, and we'll terrorize  
every  
1,2,3

Get your hands up  
And reach for the sky  
Nobody's stopping you now  
Get your hands up  
And don't try to hide  
I see everything  
Hands up  
You're doing alright, you know we're not gonna stop  
'Till you're hands up  
Get famous tonight  
I see everything

I'm the best and the worst friend that you'll ever know  
Number 1 and my number 2 is the piece I hold  
Living hard and I'm dying young and we're getting old  
Come with me I can set you free and we'll show the  
world what I mean to

Throw up your hands up  
And reach for the sky  
Nobody's stopping you now  
Get your hands up

And don't try to hide  
I see everything  
Hands up  
You're doing alright, you know we're not gonna stop  
'Till you're hands up  
Get famous tonight  
I see everything

Come with me if you want more [x3]  
You can come but first I need all your

Hands up  
And reach for the sky  
Nobody's stopping you now  
Get your hands up  
And don't try to hide  
I see everything  
Hands up  
You're doing alright, you know we're not gonna stop  
Hands up  
Get famous tonight  
I believe ya  
I believe ya  
I believe ya can
