While I'm watching all my best friends drown,  
Air's to thick water's brown and it's three to three  
Sitting on town all watered down  
While I'm watchin' all my best friends drown,  
Air's to thick water's brown and it's three to three to  
three

This ain't prophecy yeah  
It's just something I did last night  
I mean no disrespect towards  
I'm just concerned oh, If I had the strength to well,  
I would thank God I did it right  
I'm just sitting back and I'm settled this time  
Could you appreciate that this is mine, my life!

Feelin' messed up it's the end of the night  
Am I wonderin' how I'm gonna die?  
I hold back ain't no side of a submarine  
Feelin' messed up it's the end of the night  
Am I wonderin' how I'm gonna die?  
I hold back ain't no side of a submarine

This ain't prophecy, yeah  
It's just something I did last night  
I mean no disrespect towards  
I'm just concerned oh and If I had the strength to well,  
I would thank God I did it right  
I'm just sitting back and I'm settled this time  
Could you appreciate that this is mine, my life!
