Coming out to the show and they're offering
All the status and pain that a song can bring
But if I don't write this hit tonight
If I don't write this, if I don't write this
Hit tonight well the rhythm won't stop
Pass me by someone better who's got all
What it takes to come this far
What it takes to be the star

These words
And I have cursed
This lonely boy who lives by the water's edge

To see my chance and look away
This is do or die
Not sure of who am I
Too late to change direction
Locked in my room again
Fight back in isolation
Too fear what I'm becoming

Music's a powerful weapon
My only tragedy is that I don't have one
Is it written on the wall
Is it written out loud for the
Words to take so the rhythm won't stop
Pass me by someone better who's got all
What it takes to come this far
What it takes to be the star

These words
And I have cursed
This lonely boy who lives by the water's edge

To see my chance and look away
This is do or die
Not sure of who am I
Too late to change direction
Locked in my room again
Fight back in isolation
Too fear what I'm becoming

Give away every last drop to
Who will pay more for our ashes
We're in a world where corruption is the fashion
Raise the bar again you can't stop it
Who's in charge of them can't tell
Too late to change direction

Two lines left to write
Closer now than ever before if I
Decide it's not worth fighting for
Will they still be sending me
To the grave in luxury
Can they save another falling star

Die!
This is do or die.
Do or die.
Not sure of who am I
who am I
Too late to change direction
Can't change direction

To see my chance and look away
This is do or die
Not sure of who am I
Too late to change direction
Locked in my room again
Fight back in isolation
Too fear what I'm becoming
