"Wake Up"

It's not working and no you're not feeling a thing
It won't help
Nothing's gonna take it away
Won't work so sure we're spiraling out of control
You make everything feel like everything is alright
Nothing but a matter of time
Till I unwind
Unwind

Wake up and listen to the sound
Raging inside us all
It's not the way I want to feel
But at least inside I feel a bit better
I wouldn't leave them if I could
But maybe if I try
I can fake this heart attack
Find a way to live forever
Ever, ever, ever

It won't save me
The angel's gonna take me away
She's so pretty
Living in her pitiful life
Loaded
Bloated
Inching closer to the edge
Not ready
Feeling so pathetic
Writes a love letter
Open for somebody to read
Praying
Waiting
The end

Wake up and listen to the sound
Raging inside us all
It's not the way I want to feel
But at least inside I feel a bit better
I wouldn't leave them if I could
But maybe if I try
I can fake this heart attack

Find a way to live forever
Ever, ever, ever.
Ever, ever, ever.
Wake up and listen to the sound
Raging inside us all
It's not the way I want to feel
But at least inside I feel a bit better
I wouldn't leave them if I could
But maybe if I try
I can fake this heart attack
Find a way to live forever
