Sweet touch of citrus skin  
I watch you peeling mandarins  
As gently as the day begins  
I cover up the shade we're in  
And I retrace what brought us here  
Cigarettes and cheap dead beer  
The fresh air in that atmosphere  
We talk but never hear  
Guess I don't know you at all  
All I know is

Love won't hide away  
If it's right I know we'll find a way  
Darling stay, but if you think that you must leave  
It's not a thought that worries me  
'Cause love don't hide away  
Love don't hide away  
We're like flowers in the grass  
Without the rain we cannot last  
Clouds bring dark but they will pass  
We're just storming in a glass  
That's chipped and cracked and bound to break  
And when it does, it's still ok  
'Cause we could use the luck it brings  
At this point I'll take anything  
'Cause I don't know you at all  
All I know is

Love won't hide away  
If it's right I know we'll find a way  
Darling stay, but if you think that you must leave  
It's not a thought that worries me  
'Cause love don't hide away  
Love don't hide away

If I could buy the words I need to say  
I save it all to spent my life away  
'Cause all I want is just to have your love

Love don't hide away  
If it's right I know we'll find a way

No, love won't hide away  
If it's right I know we'll find a way  
Darling stay, but if you think that you must leave  
It's not a thought that worries me  
'Cause love don't hide away  
Love don't hide away  
Love don't hide away(
