Hey girl  
What you are doing in this corner  
I bet I think you should let me to get to know you  
We see you come you should follow me to the bar  
This ain't no game  
We should make the move to my car

Chorus

Hot she moving when she's moving  
When she's dancing on me  
I see what you're doing girl  
She didn't... she wants some more  
She is ready to go  
I am like the energizer buddy  
So meet me on the dance floor  
I can... they don't have to... in this club

We can dance all night  
Until the morning  
(Repeats)

Is hot in here  
Got me looking like I am dancing in the rain  
Come be my umbrella  
Be close... frame  
Call your friends  
Cancel your plans  
I tell to all my friends  
We are going all night till the end  
... the party begins

Chorus

She's dancing on me (repeats)  
She is ready to go

Chorus
