You sleep so cold
And how I'll love you forever.
My darling, I suppose

We had everything
And still wanted more
We told the stars down from the sky
Sometime back in '64
Now I remember the memory
Forever tonight.

Let these words be my testament
To each day that went wrong
Without you dear, I am nothing
And there's nowhere I belong.

We had everything
And still wanted more
We told the stars down from the sky
Sometime back in '64
Now I remember the memory
Forever tonight
Forever , fo-o-o-orever tonight.
