[[.Verse1.]]

I can't seem to get a piece of mind
Cuz its running through my mind all the time
I cant really help it
This is so confusing yeah
I cant understand it
No no

[[.Hook.]]

Do you remember when we promised each other to
stay forever in love
Hey
Then you stepped on the promise you did the ugliest
thing I could think of yeah
Tell me how could I let it go

[[.Chorus.]]

You used to be my everything
I used to be your only king
We used to be inseparable
We couldn't spend the nights away
You used to be my melody
You used to mean the world to me
You didn't even say that you were sorry sorry

[[.Verse2.]]

I cant seem to get you out of my head
Cus the echoe is left from the things u said
Feeling kinda helpless
Nobody to talk to no
Shit is really endless
Yea yea

[[.Hook.]]

Do you remember when we promised each other to
stay forever in love
Hey
Then you stepped on the promise you did the ugliest
thing I could think of yea
Tell me how can I let it go

[[.Chorus.]]

You used to be my everything
I used to be your only king
We used to be inseparable
We couldn't spend the nights away
You used to be my melody
You used to mean the world to me
You didn't even say that you were sorry sorry

[[.Verse3.]]

Situations gone bad
And you're the one that's mad
How come?
I aint the one who ripped you apart
Cant believe that you would try to push this to the side
How come?
I aint the one who ripped you apart
Noo

[[.Hook.]]

Do you remember when we promised each other to
stay forever in love
Hey
then you stepped on the promise you did the ugliest
thing I could think of
Tell me how can I let it go

[[.Chorus.3x.]]

You used to be my everything
I used to be your only king
We used to be unseparable
We couldn't spend the nights away
You used to be my melody
You used to mean the world to me
You didn't even say that you were sorry sorry
