"Ars Diavoli"

Visit "[Ars Diavoli](#)" on MotoLyrics.com

How can I blame anyone but myself?
There is no challenge in pointing fingers
Don't look at me for answers
For I myself am drowned by uncertainty

How can I change anyone but myself
If I'm subject to this hatred?
I believe we've lost faith in ourselves
Let alone our compassion

This machine - driven by ignorance
This machine - producing evil
This devouring machine - call it mankind

How can I bring about change in myself?
Pointing the finger at my own weakness
Am I a product of this evil
Or is it solely my creation?

Do not fear the truth -
Embrace it!
