"A Full Clip Over The Edge"

First you cap enough to steal
Then she had enough to kill
One small became my fearless friend
She push me down till i flew again
I'm a full clip over the edge
No boo can help me fall the ledge
I'm on a elevator feeling i'm the only one inside
Slap my seatbelt tight
It's just my spaceship flying hard to get away from you
tonight
Looks like i'm alright
Oh what happen
You've been a bad boy
Were did you go wrong on that yellow brick road
First you cap enough to steal
Then she had enough to kill
One small became my fearless friend
She push me down till i flew again
I'm a full clip over the edge
No boo can help me fall the ledge
That alright she's my fanicy driver
That's alright she's my friend
I'm on a elevator feeling i'm the only one inside
Slap my seatbelt tight
It's just my spaceship flying hard to get away from you
tonight
Looks like i'm alright
That's ok
That's ok
That's ok
That's ok
Come here come here
A little bit closer
That's ok
