Whether we are together
We weather the party together
It's better, better with the lights off
Mañana, we don't know what that means
All aboard!

We don't care where we're going as long as we don't
arrive
We're all on my bad machine and prove that we are
alive
Take us on great adventure drive, eskimo drive
Party on the eskimo ride

Either just jagged a dandy
The ether sticks just like candy
We're passing Pluto
Carl Sagan eat your heart out
La negra, we like the way that sounds
La negra, spasiba, für alles

We don't care where we're going as long as we don't
arrive
Keep on my bad machine and live a wonderful life
Take us to happy endings, drive, eskimo drive
Party on the eskimo
We don't care where we're going as long as we don't
arrive
We're all on my bad machine and prove that we are
alive
Take us on great adventure drive, eskimo drive
Party on the eskimo ride
Have your fun on eskimo ride
