Squeeze  
Like it, like it's a disease  
Keep your pants on  
Keep your knowledge burnin'

Something takes  
And something holds  
And something breaks  
The fucking mold!

Kids, now listen  
Burning burning burning  
Down the back lawns  
Hey you, come on kids  
Don't let yourself  
Feel safe now

Something takes  
And something holds  
And something breaks  
The fucking mold  
Never trust  
Who wants control  
It's time to break  
Breakin' out of the doldrums  
We're soldiers  
We want to break free, break free!  
Bust out of the rules  
Fuck the rules, yea!  
Who's gonna make me, make me!?  
Breakin' out of the doldrums  
We're soldiers  
We want to break free, break free!  
Bust out of the rules  
Fuck the rules, yea!  
Who's gonna make me, make me!  
Make me, make me!

Freeze is a disease  
Yea come on, sorry, it's 1 2 now  
So just fuck 'em up

'Cause you're a brilliant star  
Yea, just pump 'em up  
You know who you are

Something takes  
And something holds  
And something breaks  
The fucking mold  
Never trust  
Who wants control  
It's time to break break break break free

Breakin' out of the doldrums  
We're soldiers  
We want to break free, break free!  
Bust out of the rules  
Fuck the rules yea!  
Who's gonna make me, make me!  
Breakin' out of the doldrums  
We're soldiers  
We want to break free, break free!  
Bust out of the rules  
Fuck the rules yea!  
Who's gonna make me, make me!  
Make me, make me
