Oh yeah
It's just me and this girl

Looks like you and me don't part
Wrap me up in velvet heart
Oh no
Just another one night stand
Give me head or be god damned

Cloudy blue barbiturates
Real rich people don't get sick
Oh no
Just another one night stand
Love me but don't hold my hand

Love makin'
It's hard fakin'
It's true
But it's just for you

Many Loves
It's my alternate pill
It's my, many loves
That's my alternate pill

It's my
Many loves
It's my alternate pill
It's my many loves
That's my alternate pill

Can't be too careful these days
Born in April
They got AIDS
Oh no
Can't win 'em all the time
Give it give it to me
Gonna lose my mind

Had a good man
He went bad
Had a bad man

He wasn't that good
Oh no
What's a poor girl to do
Lookin' around for the perfect skill

Love makin'
It's hard fakin'
It's true
When it comes to you

Many loves
It's my alternate pill
It's my, Many loves
That's my alternate thrill
It's my

Many Loves
It's my ultimate thrill
It's my, Many loves
That's my ultimate pill
