Verse 1:

I thought u were the right choice
but now u aren't the same guy
and if i had a loud voice
it'd be nothing u would buy
but now i see
that u used me
to get some better friends
and now i know
u've got to go
and this is where it ends

Chorus: get lost
who needs ya
consider yourself tossed
you need to pay the cost

no problem for u to spend
I can get better boyfriends
and this...is...where...it...ends

Verse 2: I know you know i mean this
and it haunts u all the time
but before this major dis
u used to be mine
so hit the road
get in the mode
go live in your own world
Get someone new
to take care of you
i'm not that kind of girl
