Hours lost day by day  
Your many voices fear the change  
From the past they'll help you hide  
Let the pain swell deep inside

Oh the burden of remembering the past  
Your shattered experience  
Has broken you at last

Vengeance vengeance is mine  
Vengeance vengeance is mine

All the secrets that are yearning to be free  
The trouble stems  
From your emotional disease

Oh the burden of remembering the past  
This shattered experience  
Has broken me at last

Vengeance vengeance is mine  
Vengeance vengeance is mine

Hours lost day by day  
Your many voices fear the change  
From the past they'll help you hide  
Let the pain swell deep inside

Oh the burden of remembering the past  
Your shattered experience  
Has broken you at last  
All the secrets that are yearning to be free  
The trouble stems  
From your emotional disease

Vengeance vengeance is mine!  
Vengeance vengeance is mine!
