Slept-walked through yesterday,
Today I planned to do the same
But some people can't let sleeping dogs lay

Well, I just can't let this one go,
Looks like it's time to steal the show
Now step back and witness yourself a miracle

If you really want a piece of me you better get in line
If you really want to feel a rush c'mon let's take a ride

You're waking a dead man now

A brave man to be tempting fate,
And I'm not one to let you wait
I know no fear and I'm not about to hesitate

So let's even up the score.
What, that's not what you had in store?
Take a good look, isn't this what you were asking for?

If you really want a piece of me you better get in line
If you really want to feel a rush c'mon let's take a ride

You're waking a dead man now
You're waking a dead man now
I've awakened

Wipe your eyes, no you're not dreaming
That's right, it's time to begin the screaming
I haven't the heart to take pity on you
Oh, sweet violence

I know this isn't what you planned, your visions once so
grand
Instead I've taken everything you thought you had

I smile as I watch you bleed, just to bring you up to
speed
It looks like this dark horse has now taken the lead

If you really want a piece of me you better get in line
If you really want to feel a rush c'mon let's take a ride
If you really want a piece of me you better get in line
If you really want to feel a rush, feel the rush!
