Every good things on the back  
But meeting you..ha...ha  
I feel fulfill of my life time  
And I personally like to  
Thank you My Love

Remember the day  
We firstly met on each other  
You can my way  
I watch home and kiss you

Thank you my love  
For such a golden memory  
You've meant so much in my life  
My love

Whenever we dance...oh  
Your kiss up through and play  
There were romance  
To love me much each other

Thank you my love  
I'll never ever leave  
No one can ever see that  
You are the one for me  
There never be one  
Like my love

Thank you my love  
For such a golden memory  
You've meant so much in my life  
My love

One together  
hand a hand  
we can make it
