Let's go!  
Let me take you to my favorite place  
Hurry up we got no time to waste  
Minna to Modachi let's unwind  
Take a step leave it all behind

An Inspiration you will find  
Come with me and free your mind  
Itadakimasu

Open up your eyes, open up your mind  
Feel the promise of a great time happening  
Open up your heart, open up your mind  
Stay awhile at my favorite place

Let's go, let's go, Itadakimasu  
Let's go, let's go, Kawaii

Time stands still yet we crave for more  
Feels so right and there's more in store  
We're free to be who we ought to be  
This change is good for you and me

An Inspiration you will find  
Come with me and free your mind  
Itadakimasu

Open up your eyes, open up your mind  
Feel the promise of a great time happening  
Open up your heart, open up your mind  
Stay awhile at my favorite place

Let's go, let's go, Itadakimasu  
Let's go, let's go, Kawaii
