It's just a touch of morning
It's just another I can tell
It's just a touch of morning
I'll set up a knock down, boy I fell

Can we at least delay it?
I'm in the grips of dyin'
It's just a touch of morning
I'll set up a knock down at the scene of the crime

Used to talk among the lions
Never came across a thread of fear
Used to stand out in the open
But that's all gone
Yeah that's all gone

It's just a touch of morning
The ringing of the distant bells
It's just a touch of morning
Tempered with a tear drop that says I might have done
very well

Used to talk among the lions
Never came across a thread of fear
Used to stand out in the open
But that's all gone
Yeah that's all gone

It's just a touch of morning
Ringing of the distant bells
It's just a touch of morning
I'll set up a knock down, boy I fell

Ringing of the distant
I'm in the grips of
Ringing of the distant
It's just a touch of
Just a touch of morning
