I've had girls and I've had women
But I've never had a lady before
I been high and I been flyin'
But I've never been this crazy before

Saying sweet things that I really wanna hear
And it's coming as no surprise
Whatever we got is oh, so hard to find
I realize too that a something like you
Doesn't come along everyday
And I'm turning over part of my mind to you, now

I been loved, been befriended
But I never really bled before
I've seen brains and I've seen brilliance
But I never got 'em through my head before

Could've been a week or it could've been an hour
It could've been a thousand years
When I'm with you baby, I'm losing my track of time
A little bit of me and a little bit of you
Is telling me to have no fears
And I'm turning over part of my mind to you, honey

Ooh ooh, emotion just can't be denied
Ooh ooh, feelin' only comes when we're side by side

I've had girls and I've had women
But I've never had a lady before
I been high and I been flyin'
But I've never been this crazy before

[Incomprehensible] I wanna hear
And it's coming as no surprise
Whatever we got is oh, so hard to find
I realize too that a something like you
Doesn't come along everyday
And I'm turning over part of my mind, now for you,
honey

I've had girls and I've had women
But I've never had a lady before

Hey, na na na, no, I never had a lady before
Hey, no lady

No, I never had a lady before
Never had a lady before
Hey, now you're doin' it
Whatever you do, I'm gonna like it

Never had a lady before
Don't know what you're doin'
But you keep on doin' it baby
Never had a lady before
