"Rollaway"

I came to you so late one Friday evening
I said "I need a place to slumber there"
You looked at me and pointed down the hallway
You said that I could sleep right over there

A rollaway
A rollaway
That bed just down the hall is a rollaway

So buddy have no fear
You can spend the night right here
That bed just down the hall is a rollaway

What did you say?
Buddy, it's a rollaway

A rollaway
A rollaway
That bed just down the hall is a rollaway

So buddy have no fear
You can spend the night right here
That bed just down the hall is a rollaway

Thanks man
