[Me:]  
What happened?  
I think I fell asleep  
I feel so cold  
I'm all alone  
I feel so weak  
I can't move on  
But I tried  
I wonder

What happened?  
I think I'm still asleep  
They took my clothes  
They took my name  
They took my home  
They took my pain  
As I turned  
Into a number

White walls, gray door  
White pills, gray jar  
White moon, black floor  
White cell, gray bars

What happened?  
I see faded colors

Faded colors...  
I wonder
