Wanda  
My playful little friend who lives inside of me  
She's good to joke  
She's good to prank  
She's good to laugh  
But cannot see  
Poor Wanda  
Blind since the day she turned three  
Felt real bad  
So I took her in as a second personality  
Just yesterday  
Wanda said  
"Without a doubt I'm moving out  
I'm moving into the city  
Getting fake titties  
Gonna look pretty with a pink dress on"  
She's gone  
Ain't no way she's coming back  
Too bad  
I ain't gonna get sad  
No way I'm gonna get sad

Someday you'll come to me  
My supersonic personality  
They'll never know just where we'll be  
Secret source of reality  
It's all about me, me and my other personality  
It's all about me, supersonic personality

Tone deaf jeff  
Moved in a day later  
Found him in a restaurant bitchin' to a waiter  
He was moody  
He was jaded  
He was always constipated  
Lets face it  
He was everything i hated  
Jeff, his brain's not big enough for the two of us  
Take your thoughts  
Take your mood  
And take your voice

Its out of tune  
If you move real quick  
You can probably catch the next bus  
Ain't no room for the two of us

Someday you'll come to me  
My supersonic personality  
They'll never know just where we'll be  
Secret source of reality  
It's all about me, me and my other personality  
It's all about me, supersonic personality

Sixteen voices  
Moved outta my head  
I couldn't keep track  
Off all the words they said

Brenda Bean was born  
After watching superman  
She wore a cape when troubles were near  
She saved my life  
Have no fear  
For Brenda Bean will save the day  
Any time, anyway, any how, any where  
Brenda Bean will soon be there

Someday you'll come to me  
My supersonic personality  
They'll never know just where we'll be  
Secret source of reality  
It's all about me, my and my other personality  
It's all about me, supersonic personality
