I wanna love you baby (repeat)

Chorus:

No love is a real love without you

No love is a real love without you baby

Verse 1:

They say we're too young

To fall in love

Girl I need your touch

I just can't get enough

So hold me, slowly

No matter what they say

I was meant for you and you were meant for me

Chorus:

No love is a real love without you

No love is a real love without you baby

Verse 2:

I never had love to be so true

I'm so into you

Baby it's everything you do

I'm losing control

Can't let you go

Baby you should know

You're everything I need and more

Chorus:

No love is a real love without you

No love is a real love without you baby

I wanna love you baby (repeat)

Verse 3:

Love without you don't mean a thing

In me you brought a change and my life is not the same

So don't you go away girl please stay

I need you by my side

Now that I realize that

Chorus: repeat 1x

(jamal)i wanna love you baby

(olamide) I wanna love you baby. (repeat 1x)

Chorus: (repeat and fade out)
