I'd like to make a documentary of everything that's  
occurred between you and me  
Put us on an independent film for the whole entire  
world to see  
Ã«Cause everybody's watchin' you and me, cause they  
can't seem to just let it be  
So let's put us on a television show to ease their  
curiosity

It's an E true story, sex and drugs and tragedy  
The next cliché we found God and the rest is history  
And the whole wide world was watchin' Billy Bob and  
Angelina Jolie...huh! No!

The way I feel  
(uh huh)  
The way I feel  
(that's how I feel)  
The way I feel  
(this is real)  
That this is real

I'd like to make a comedy of everything that's occurred  
between you and me  
Put it on a television show, in place of that Anna Nicole  
Smith Stupidity  
Cause everybody loves an idiot; cause it makes them  
act more intelligently  
So lets stop the show survivor and show them what's  
reality

You and me are sinkin' on the good ship lollipop  
There's only one life preserver to make the drownin'  
stop  
And I veto the vote to get kicked to the curb  
Kicked to the curb, kicked to the curb  
So hold my hand and hold your nose  
And get ready for a moon lit dip honey

The way I feel  
(Uh Huh)

The way I feel  
(That's how I feel)  
The way I feel  
(This is real)  
That this is real

Let's go on a talk show spree Oprah Winfrey will you  
give us some money  
And then Jenny Jones can give me a makeover when  
you lose interest in having sex with me  
And when we're married and ready for babies Ricky  
Lake will help prove that it's yours  
And then we'll go on the Price Is Right and see what's  
behind those golden doors

(Gasp) It's a refrigerator  
(Gasp) It's a car  
(Gasp) It's a brand new house  
(Gasp) It's a trip around the world

There's no more secrets to reveal  
We can admit that this is real  
I can't escape the way I feel  
We can admit that this is real

The way I feel  
(Uh Huh)  
The way I feel  
(That's how I feel)  
The way I feel  
(This is real)  
That this is real
