Baby you tow me away..

I was up with the moon, and down with the stars,  
And the party was carrying on (party!).  
All the girls were outside, kicking sand, sipping on  
mohitos (ooh!),  
And all the boys were standing around, dancing the  
congo (hey-yeah-hey...).  
And then, woah, there she was, I think she's looking  
RIGHT AT ME (no way),  
Hey! I know what I see when I see it (right).  
Watch me go down there and do my talk,  
Damn girl, I just got something to say.

[Chorus:]

Tell me will it be okay if I say...  
You got it! You all dat! You got it! Baby, you tow me  
away.

All the girls started laughing at me (a ha ha ha ha ha!),  
I had to make a quick retreat, get ready for round two  
(bong).  
Coz my love is like a bomb, about to explode,  
And only she can light my FUSE.  
So I'm walking (woah), I'm talking (way),  
Damn girl, I just got something to say.

[Chorus]

DESPERATE MEN MAKE DESPERATE MOVES,  
So I dropped to my knees and prayed (yeah).  
Please, God, just one time, give me a night of ecstasy  
just for two.  
Until I opened my eyes and to my surprise,  
My goddess of love was standing there, and she SAID.

DAMN, baby, got something to SAY?  
Well, c'mon, hurry up, I don't got all day.  
You got the hots for me, I can see,  
But you gotta give ALL you got to get me.  
So c'mon, c'mon, what you got? Give it to me,

If not, you're LIKE ALL OTEHR GUYS who wanna do me,  
huh.  
LET ME show you how it's done,  
You gotta be bold, or you ain't gonna get none.

[Chorus]

I know your head is for the time of day,  
I'm one, since you won, after you say what you wanna  
say.  
Tick-tock, the time is ticking,  
I'm under pressure, I'm nervous - Chicken.  
Hold up, girl, listen up, you're my dope,  
You're all dat, you definately got it, girl.  
What you want? What you need?  
What I gotta say? Give me your hand, AND LET ME take  
you away - Okay.

You got it! Baby, you tow me away.

I was up with the moon, and down with the stars,  
And me and my baby was going to our own party.
