Ohh

I had to put the photographs of you away
It hurts so much to see you smile at me
Since you've been away, I feel an empty space
That will never be replaced with memories

Ohh

I can't believe that it's over
But this sure is a shame
But love was not enough to make you stay
So I had to say goodbye to yesterday
You went away

I tell myself that I'm not missing you
(I'm not missing you)
But my heart it just won't listen
(Just won't listen)
Even though I tell it to
I think about it all the time

Can't seem to get you off my mind
And it just won't seem to matter what I do
Can't stop missing you
(Missing you)
I'm missing you

Never thought each breath was gonna hurt so much
The heavy on my heart just won't subside
The time we spent together was just not enough
So I guess, that's why I just can't say goodbye, no

Ohh

I can't believe that it's over
That the ties have all been freed
Still I'd give the world just to have one more day
(One more day)
Just a chance for me to hold you close and say
Please don't go away

I tell myself that I'm not missing you
(I'm not missing you)
But my heart it just won't listen

(Won't listen)
Even though I tell it to

I think about it all the time
('Bout it all the time)
Can't seem to get you off my mind
And it just won't seem to matter what I do
Can't stop missing you

Time will heal my wings and let me fly
(Far away)
Far above the rive that I cry, ohh
High above the borrow that has kept me from the truth
Somewhere out there you've been missing me
Like I've seen missing you

I tell myself that I'm not missing you
(I'm not missing you)
But my heart it just won't listen
(Won't listen)
Even though I tell it to

I think about it all the time
('Bout it all the time)
Can't seem to get you off my mind
And it just won't seem to matter what I do
Can't stop missing you
