You're an inspiration  
You always make me  
See things so clearly  
You build me up and made me realize  
That life is perfect  
With you it's endless  
I thought I'll never have this pure  
Love and affection  
So I sing this line, this little rhythm  
Of time just to make you feel how I treasure you  
You're the light in my dreams of sea and sky  
I'm falling deeper in your heart  
I'll hold this moments of you and me  
Fill it with memories  
Oh how great would that be  
You're close to me and you're never far  
My heart is in heaven when all I see is you  
I know you know what it feels like  
I know you know how it feels  
I'm so desperate so please stay  
Just look into my eyes  
And you will find  
That everything is fine  
I just can't define  
What I have for you is a natural sign  
You're the song that fires that made me inspired  
I thank you for all you are...  
You're an inspiration
