"Girl"

I just can't believe it
You were always on my mind
I hope I can I forget it
And I wish that I was blind

But now that youÂ're with someone
I can't believe itÂ's true
It's really hurting me
When I see you...

[Chorus]
Girl, even though you love somebody
I'm still here to love you
Girl, I can't hide this feeling

That I feel for you... ohhh......
That I feel for you...

I can't accept the fact
That youÂ're with him right now
There's nothing I can do...

And now that youÂ're with someone
I can't believe itÂ's true
It's really hurting me
When I see you...

[Chorus]

[Chorus 2x]
