Immature, kick that for all the ladies out there

Batman:

There's a way, we both feel, as one
Here inside my heart, until we understand
That love takes forever, hold me now
I'll make you secure so let's make it tonight, yeah

Chorus:

I wanna know u that way, that way
I wanna know u that way, that way
I wanna know u that way, that way
I wanna know u that way

In your eyes, someone tells to me
This could never be, and still I can't ignore
This feeling of me
I'll make you secure so let's make it tonight, yeah

Chorus

Wanna know you in that way (2x)

Wanna know you in that way (That way)

Chorus (Repeat til fades)
