La la la..

See, normaly a brother wouldn't talk about his first time
But I'll just be real with y'all and say what's on my mind
I remember like yesterday, just a little man
Have no clue just what, didn't understand
Look up to big brother for a little advice
He said "Young bro, whatever you do just, make sure
you strap twice"
I was a little bit nervous about being my first time
But I said "What the hell this girl is too damn fine"

[Chorus]

My very first time
In the house, in the couch, in your parents' bedroom
remember
My very first time
Wait 'til the day when I see you again remember
My very first time
It was just that special to me that it was to you girl
My very first time
Will never forget my first time

See it was sunday afternoon, mom and pop were gone
We have to be on the low cuz they were on their way
home
We started kissing then laid straight up to the bed
Can't believe this is happenin' is what I'm thinking in my
head
Last like a minute but I'd say like forever
We almost got caught but I'm just too damn clever
Your parents came home from church and i was outta
there like a drop of a dime
Man I will never forget my first time
This goes out to the first do you know
when will I see you again (see you again)
And no matter how all people've get no regrets I will
never forget
My first time

[Chorus]

My very first time
In the house, in the couch, in your parents' bedroom
remember
My very first time
Wait 'til the day when I see you again remember
My very first time
It was just that special to me that it was to you girl
My very first time
Will never forget my first time

See some of you might have started early but some of
you started late
But I know when I started I thought it was great
This goes out to all my little brothers in the world
Make sure your first time's with that special girl
Clap your hands if you remember (clap your hands)
your first time (first time), your first time (first time)
Clap your hands (clap your hands with me)
if you remember your first time (your first time), your
first time baby

[Chorus x2]
My very first time
In the house, in the couch, in your parents' bedroom
remember
My very first time
Wait 'til the day when I see you again remember
My very first time
It was just that special to me that it was to you girl
My very first time
Will never forget my first time
