Shadow  
Soldier  
Silent  
Predator

Take down the master  
Take down the throne  
Bring them their heads  
Send a message to the world

Sinister  
Warrior  
Faceless  
Killer

Take out the king  
Take out the kingdom  
Paralyze their power  
Send a message to the world

Gave you the power  
Gave you control  
Fail the people  
And you will fall

Faiths collide, social unrest  
Clear the air, force the change  
Dusk will bring the serpent's kiss  
Never see another dawn

Take down the master  
Take down the throne  
Bring them their heads  
Send a message to the world
