War on our hands, war on our minds  
Beat on the drums, beaten our hopes  
Nothing is left, nothing is gained  
Angry at one, angry at all

World in Agony, World in pain  
World in Anger, World of shame

The error of man, the error of faith  
Shaping tomorrow, destroying today  
Nothing ahead, nothing to be  
Anger is one, anger is all

World in Agony, World in pain  
World in Anger, Word insane

Cursing ourselves, causing our death  
Abusing the earth, it's coming apart  
Can we undo, what we have done  
Before we undo, what we become

The earth is bitter  
The earth is black  
What have we done  
There's no going back
