Winter of the ages so dark so cold  
That flames turn into the bluest frost

Mountains of ice rises above a dead and a frozen  
ground  
The ravens return to the hills  
And the Millennium black bells of eternal frost  
Chime to the Northern lightning

Upon the mountain side I stand  
The floods of black runs below

Hair of a cold goat scalp I kiss  
Eye's taken mountains still breathes at one  
To the poisoned ground

Midnight dark sky open up  
A blast of red lightning rides the night

With doom winds death's angels fly  
Across a nearly closed sky line  
And the sun freezes at one with the infernal holocaust  
frozen clouds

"Centuries of doom reigned by the Goat Throne of  
desire  
Raised by sorcery to the Holocaust sky"

North black hordes storms  
Through invincible cyclones of frost winds  
I lift my hands  
And join the ceremonial circle of one wind

Eyes of stone now sleep into eternal nights  
This winter is forever

A wind of red I rode  
A wind of evil cold

For the years that have passed in the North  
Brought me a vision of the Goat Throne of desire

On the hill side where I stood I left for another world  
Tragedies blows at horizon  
The sun freezes to dust

A perfect vision of the rising Northland
