people aching desperate streets walking no ghosts
here reality

concrete raining merciless bitter

taste feel the chill agony fire no attempt scratch the
earth above

the earth life struggle across the tower

outside the structure grotesque no crime no
vindication doomed to

fate under thunder skies open you wait for

chosen futile no response from the masses enigma
faceless

thousand destiny twisted speeding the process

prisoners of a genetic disorder eyes so bright in the
shadows

fearing tomorrow when sunlight can kill but they have
love

millions of people walk the cracks in the streets where
we live why

can't we give something they're dying for
