Music: Abbath / Demonaz

Lyrics: Demonaz

Arctic wintery worlds in mind

Possessed forever

By the chains of time

Beastly crafts comes with the snow

We bring the coming

Of our demonstorm

Mountains

On highest mountains we stand

Valleys in the deep valleys we dwell

Demonside

Hallstones flay the skin of earth

Demonize

Until entropys victory in ensured

Stealers of dawn

Pale wraiths of the arctic swarm

Cover the sun

Storms are what we breathe

Arctic wintery worlds in mind

Possessed forever

By the chains of time

Beastly crafts comes with the snow

We bring the coming

Of our demonstorm

Mountains

On highest mountains we stand

Valleys in the deep valleys we dwell

Demonside

Hallstones flay the skin of earth

Demonize

Until entropys victory in ensured
