"In My Kingdom Cold"

Visit "[In My Kingdom Cold](#)" on MotoLyrics.com

Forth after dark, a time I do know
In my kingdom I enter to my own world
Open the gate of a mountain dark
Rising with the shadows, a dark world made for me

Black my mind, black my heart
In my kingdom I enter to my own world
Open the gate of a mountain of black
Rising with the shadows a black world made for me

In my kingdom cold at the mountains of madness
Unending grimness and these mountains which I heart

In my kingdom cold at the mountains of madness
Unending grimness, this kingdom is mine

Frozen and cold, an existence I know
In my kingdom cold, I enter this condition
Open the gate, there's a mountain of ice
Rising with the shadows, a cold world made for me
A cold world made for me

Forth after dark, a time I do know
In my kingdom I enter into my own world
Open the gate of a mountain of dark
Rising with the shadows, a world truly made for me

And here we go again

In my kingdom cold at the mountains of madness
Unending grimness and these mountains which I heart

In my kingdom cold at the mountains of madness
Unending grimness, this kingdom is mine

This kingdom is mine
