"lift your voices  
lift your holy hands  
lift your praises high  
lift them up in the name of the author of love

time - bending, everlasting  
Almighty God from age to age  
beginning and ending  
one God worthy to be praised!

God is love  
love is God  
and He's invincible

lift your troubled soul  
lift your weary eyes  
lift your broken life  
lift them up in the name of the author of faith

effecting and causing  
Almighty Lord of time and space  
who was and is and is to come  
on Love worthy to be praised!"
