Sons of Northern darkness
Under the throne of the moon

United with forces of evil
And infernal doom

Lords of tragedies storms
As the valley gates opens

Decayed lands of sorrow
Wait below
Wait below

Storming through red clouds and holocaust winds
Storming through red clouds and holocaust winds

Eyes in blades shining
Blades in eyes shining

Sons of Northern darkness
Under the throne of the moon

United with forces of evil
And infernal doom

Storming through red clouds and holocaust winds
Storming through red clouds and holocaust winds

Demonized by the closing Nordic lights.
