And with our heart we stand together our paths the same  
And with our heart we stand together our paths the same  
And with our heart we stand together our paths the same  
And with our heart we stand together our paths the same  
Will I resolve all my sins  
Amend upon gestures I gave a long time ago  
I've said the things I wanted to say  
So I drive  
Deeper inside the belly of the beast  
The beast I needed to slay  
I've come to far to leave this behind  
Don't look any deeper you won't like what you find  
And I just explain it don't turn away from me  
Don't look any deeper you won't like what you see!  
There's never been a better time for me to shine  
There's never been a better way for me to say  
So I tread these concrete times  
Looking for a better way  
So I drive  
Deeper inside the belly of the beast  
The beast I needed to slay  
I've come to far to leave this behind  
Don't look any deeper you won't like what you find  
And I just explain it don't turn away from me  
Don't look any deeper you won't like what you SEE!  
You won't like what you SEE  
You won't like what you see  
So we haven't found an answer  
And so we haven't found our answer  
And so we haven't found our answer  
And so we haven't found our answer  
And so we haven't found our answer  
And so we haven't found our answer
