GO!

I split these ocean waves  
I carved a path right through you!  
The sea has washed away  
Discarded! memories!  
Searched the sea and you're not here, you're not here  
In the sand we lay  
You're not here now, you're not here  
OHHH! the anchors  
Drag down  
Your final rest  
(The ocean floor! )  
I'll never rest until you're found  
And tidal drags down  
BAAABBY! OH! in solidarity  
I've searched beneath the tide  
Too many times  
I've failed my bride  
I've searched beneath the tide  
Too many times  
I've failed my bride  
I have fought against the tide  
Too many times I've felt this  
Searched the sea and you're not here, you're not here  
In the sand we lay  
You're not here now, you're not here  
Searched the sea and you're not here, and you're not  
here  
(And now she's gone)  
And now she's gone  
(And now she's gone)  
And now she's gone  
Her bones in the sand  
She said she knew it was time  
Her bones in the sand  
She said ahhh  
She said she knew it was time
