"Ruin of the erstwhile most powerful kingdom of the continent."

Beyond the fog the eyes of war  
Wait the battle sign  
(To) destroy and burn the cursed land  
A rain of blood will rise

The power around into this ground  
Make us feel secure  
To fight against the winds of time  
Rebirthing the black woods

Hail the Moon this night  
Sons of forest Ride!  
Guiding the mayhem (to) the enemies of dark trees  
Fall of the Empire

Troops of Fire tearing flesh  
The Empire burns alive  
The Immortal Choir attacks tonight  
Screaming songs of fight

Impaled corpses will burn in hell  
The eternal sacrifice  
Trail of darkness fear and pain  
Rest on graves of time

It's the glory sign  
Forest now arise  
Beholding the fields where my enemies blood flows  
Fall of the Empire

Hear the silence from disgrace

Blood of death, victim of life  
Rainforest now emerge  
Right beneath the howling stars  
Hear the silence, cross the verge  
Now ride sons of hate  
Reign of gold turned into dust

Hear the calmness of these lands  
While men stand on ground  
Voodoo priests destroyed by fate  
Dark River, a glory sign  
Praise the lords of (the) darkest hell  
Still trust (the) same old pride  
Raise the prophecy of (a) new Land  
Run away escape from Time

Shades of forest, rest in peace  
A new horizon, now arise

Hail the Moon and the stars  
(Hear the evil side is the voice of infinity)  
Immortal, calmness and war  
(Whispering evil voices is the end of everything)  
Go Shadows, Arise!  
(Now the green is burnt and the phantoms of night are  
here)  
Fall of the Empire
